“The project touches upon ethnographic fieldwork craft and situated narratives, exploring the potentials of emerging mobile and collaborative media practices.

As part of the process of development, it aims to elaborate tangible representations and appropriate means of feedback interfaces to encourage poly-vocality, and present the project in the local environmental contexts where the media was gathered.”

“Story gathering and telling, on-site/line about Happihuone,
as a literal/littoral ‘writer-in-residence’,

Sleeping in the centre of Töölönlahti, Helsinki, 10-18 July 2007.

While living in 3m x 3m x 3m approx space in Happihuone, I have
been inviting significant active and interested persons involved at
Happihuone between 2000-2007, to stop by for tea and coffee..

And a conversational-interview about the issues that have grown
around the site and source of oxygen-room in the centre of Helsinki.”
